JONATHAN CAPE 30 BEDFORD SQUARE LONDON

BAINVILLE, Jacques

Napoleon

No. 13 'What many British readers are likely to find most admirable in the work of M. Bainville is the breadth and soundness of his views. He comprehends fully the part played by Britain in the long struggle . . . Over and over again one comes upon paragraphs or phrases which throw a ray of light upon the most vital problems. It is these vital problems which always engage the writer; and it is in his treatment of them that he appears at his best . . . One can hardly imagine a better introduction to Napoleonic study than this well-balanced, deeply pondered, and very readable book.'

THE TIMES LITERARY SUPPLEMENT

COOPER, Duff

Talleyrand

No. 14 'Its main quality, to my mind, is that it is written throughout from the intellectual rather than from the ethical or sensational standpoint. We have had so many biographies of late which are brilliant and amusing; it is a relief to find one which is sensible as well. In the second place Mr. Duff Cooper treats the English Language with respect. In the balance of his periods one catches an echo of the greater periods of English prose, whereas his deft, sharp phrases have all the nimbleness of modernity. And in the third place Mr. Duff Cooper has a perfect gift of selection. He has woven his tangled material into a tissue of silken smoothness. If biography is to be defined as "the history of an individual conceived as a work of art", then Mr. Duff Cooper's book should serve as an exhibit. It is historical in that it conveys the proportions of events; it describes an individual, since it concentrates on character; and it is, without question, a deliberate work of art.'

HAROLD NICOLSON in the NEW STATESMAN AND NATION

DIBELIUS, Wilhelm

England

No. 8 'He gives us a very thorough, very detailed, very learned picture of every department of English life. Regarded from this point of view alone the book is one which will be of the

greatest service to all serious students. It can be read with advantage and profit, even by well-informed English readers . . . His accuracy and insight are remarkable. We have noted few errors and few omissions . . . But this account is not merely a text-book compilation: it is accompanied by constant criticism and comment, which are none the less valuable because they often take the form of a contrast between the English and German institutions and attitude of mind.'

THE TIMES LITERARY SUPPLEMENT

ELWIN, Malcolm

Charles Reade

'Mr. Elwin is extremely just to Reade; he unravels for us with patience and sympathy the contradictions and perplexities of his character and actions. And the result is to give us the portrait of a man we should all like to see again, in our age which is so deficient in the qualities Reade most showed — enthusiasm, impetuosity, and magnanimity.'

THE LISTENER

GREIG, J. Y. T.

David Hume

'Mr. Greig has written a first-rate biography of a very interesting man. He describes Hume's adventures in Paris, his relations with the Encyclopaedists, and his unhappy experiences with Rousseau with a delightful humour. He gives his readers not only an excellent picture of Hume, but also of Edinburgh society in the eighteenth century and of the brilliant circle in Paris in which Hume moved and shone.'

GWYNN, Denis

**The Life and Death
of Roger Casement**

'It is balanced, accurate, and admirably written. Mr. Gwynn has not only served his own and Casement's country by the difficult labour of tracing a fine and varied career, he has served all who detest cruelty as the one crime that has no forgiveness . . . Worn out and distracted by the horrors of his

brave service against cruelty, blinded to realities by a passion for his country and a quixotic ideal of patriotism, Casement remains none the less one of the noblest characters I have ever known, and I have known many noble.'

H. W. NEVINSON in the NEW STATESMAN

HACKETT, Francis

Henry VIII

No.
1

'He draws vivid pictures and vivid characters; indeed, it is a remarkable feat that not only Henry himself and the chief actors like Wolsey, Cromwell, and Cranmer, but even the minor figures and supers, and all the six wives stand out in the book as real and distinct characters. His use of dialogue is very good; it is never invented, for as he says, "Thanks to the astonishingly full diplomatic correspondence, I could stick to the record and yet quote direct speech". I found it a fascinating book.'

LEONARD WOOLF

HART, Liddell

'T. E. Lawrence'

In Arabia and After

No.
20

'A fascinating book with not a dull page – but with many brilliant ones . . . Lawrence is an Elizabethan; a born adventurer of the highest kind; a natural soldier as well as an artist with a spark of the divine afflatus. The results of these endowments, first his inspiring leadership of guerrilla bands in the Syrian Desert, and, second, his brilliant record of those events in his two books, *The Seven Pillars of Wisdom* – a classic, and the *Revolt in the Desert*, have carried him to a peak of achievement that is unassailable. His prose is the finest that Arabia has inspired in this generation . . . The author describes vividly, and at the right sharp tempo, the series of adventurous stages of the revolt – the Battle of Wijh, the brilliant Aqaba coup, the dashing assaults on the railway behind the enemy lines, the amazing camel rides, and the masterful operations on the flanks of the victorious forces of Allenby, leading first to the capture of Jerusalem, and then of Damascus.'

BERTRAM THOMAS in the OBSERVER

LEVINE, Isaac Don

Stalin

'Mr. Levine is much to be congratulated upon this book. It is a bountifully documented study into which his personal views scarcely intrude at all, and which yet provides an exceedingly complete and obviously adequate picture of this Eurasian despot of Communist Russia.'

MEIER-GRAEFE, Julius

Pyramid and Temple

'It proves to be full of art criticism of the most penetrating kind. It would not be too much to say that it is one of the most valuable books which have yet been written about Egyptian art and architecture. On every period and on every feature of Egyptian art he has something wise to say, so much so that his book is to be recommended not merely to the traveller but to the professional Egyptologist. Roger Hinks, his translator, has carried out a most difficult task with courage and insight; the rendering could not be improved.'

MUMBY, Frank A. Publishing and

Bookselling

““Ten ordinary histories of kings and courtiers”, wrote Carlyle, “were well exchanged against the tenth part of one good History of Booksellers”; and, having set that quotation in the forefront of his ingenious and exhaustive volume, Mr. Mumby proceeds to justify it by as deft, comprehensive and entertaining a piece of workmanship as ever invited the gratitude of all sorts and conditions of bookmen. The more the reader knows of the history of bookselling, the better he will appreciate the industry, judgment, and constructive skill

which have gone to the making of this closely packed but never congested record'

ARTHUR WAUGH in the WEEK END REVIEW

PARES, Bernard

My Russian

Memoirs

No.
17

In this book Sir Bernard Pares, Professor of Russian in the University of London, surveys the twentieth century historical and political development of Russia. The writer is in a unique position. He chose this subject for his life work and has been in close personal relations with the most prominent characters in the story independently of all party views and, having the confidence of the most various persons, was able at each event, of many of which he was an eye-witness, to have the frankest explanation of their actions, views and objects. The end of the book follows the fate of the principal actors since the revolution, deals with the Bolshevist propaganda in England and gives a sketch of the main trend of events in Russia up to date.

POURTALÈS, Guy de

Richard

Wagner

No.
18

'For the future, the features of Wagner, of Cosima, of Liszt, of Ludwig of Bavaria, as of their teeming world, will be seen in M. de Pourtalès' drawings of them, for the simple reason that his drawings are instinct with the authentic breath of life. With them, learning has passed beyond the point where it has any need to display itself; the process of revivification, like the fundamental brain-work of organization and argument, has become organic, and emerges, for the reader, as an incontestable but never asserted authority. One believes in M. de Pourtalès; one accepts from him Liszt, Ludwig, and Richard Wagner, because, in his pages, they live, not in outline, but solid and warm.'

MARY AGNES HAMILTON

PRINGLE, Henry F.

Theodore
Roosevelt

“An interesting combination of St. Vitus and St. Paul,” was Lord Morley’s description of Theodore Roosevelt. The task of writing a well-balanced and judicial biography of such a personality must have been extraordinarily difficult, but Mr. Pringle has achieved it with conspicuous success. As a record of the career of its subject this volume is in no respect lacking. It brings together all the significant facts not only with regard to Roosevelt’s political activities but also concerning his excursions into the diverse unrelated spheres in which from time to time he found an opportunity of working off the surplus of his superabundant energy. Its outstanding merit, however, lies in its admirable delineation of the character with which it deals.’

TAYLOR, G. R. Stirling

Robert Walpole and His Age

‘It is a book with a great deal of reading behind it; it is not flashy or flimsy, though it is entertaining. It is well documented, and is the most complete life of Walpole written up to date.’

DESMOND MACCARTHY in the SUNDAY TIMES

No.
7

‘This new study is humane and sympathetic in its treatment of the hero . . . A living biography, and one which in its appreciation of Walpole’s foreign Policy corrects certain easy and common misconceptions.’

MANCHESTER GUARDIAN

THOMPSON, Grace E.

The First
Gentleman

‘Miss Thompson has retold the familiar tale with gaiety and sympathy. She deals with an age when life was gross and muddy, but wits ran gaily as the sparkling Thames. Every

phase and incident in the outrageous procession is equipped with its contemporary epigram. The diaries and memoirs of the time have been ransacked for the right word. Such are the ingredients for a feast of good reading and good writing.'

THE OBSERVER

TOUR DU PIN, La Marquise de la Recollections of the Revolution and the Empire

No. 9 'The book is fascinating . . . Whether as political history, or as a portrait of social life in two brilliant eras, or as a "thriller" of the first water, this book is to be read and to be treasured!'

THE TIMES LITERARY SUPPLEMENT

'Makes life under the *ancien régime* unveil before the mind's eye in all its natural carriage and motion.'
